

EMERGENCY RESPONSE WITH DRONES TRAINING PROGRAM

May 25 - 29, 2026 | TRU, Kamloops Campus

~~\$3150~~ \$1500

Get the skills necessary to safely deploy drones and leverage geospatial tools in real-world emergency scenarios. The program combines classroom learning, GIS and mapping workflows, and hands-on field operations to simulate conditions encountered during wildfire events, search and rescue operations, and flood assessments.

Take advantage of this limited-time opportunity, as this course offering is partially funded by the Ministry of Post-Secondary Education and Future Skills, reducing your enrollment cost.
